### Personal Project

- Present

Front-end Developer

Nakama INC.

Developed it in my senior year with 3 of my friends.

Since 2022, we have expanded the network to 50 coffee shops.

I worked on the front-end and back-end area, creating a simple Ecommerce and admin dashboard using Laravel8.0.

Increased the popularity of small, family-owned, independent businesses.

Successfully performing maintenance on the front-end of the platform, which is based on Laravel 8.0, & Bootstrap5.

Performed daily operations and maintenance tasks to ensure 40 web pages under Nader are up-to-date and free of errors.

Optimized UI load times and performance by up to 80% by fixing bugs.

Communicated with teams for any front-end problematic issues.
- Nov 2022 – Present

Front-end Developer

Tonydev portfolio

Create the mockup design and prototype using Figma.

Convert mockup design into HTML, CSS and JavaScript.

Used best practices in HTML and CSS to develop a static site based from a static image of a website design.

Applying responsiveness for the mobile version.

Applying various stack tools for project needs such as GSAP & JQuery.
